OUR MISSION

Vacaville Christian Schools exist to provide, in partnership with home and church, a distinctive, Christ-centered education in a nurturing environment that equips young people to excel in life and in service to Jesus Christ.

ACCREDITATION

Association of Christian Schools International & Western Association of Schools and Colleges.

OUR CAMPUS

We enjoy a beautiful, 26-acre campus in Vacaville, CA. Our facilities include a well-equipped library, a band rehearsal room with three practice studios, art room, vocal music room, computer lab, and a fully staffed kitchen for our lunch program. We have two well-maintained playgrounds and Extended Care rooms, as well as an Extended Care garden area.

OUR FACULTY

Our faculty is comprised of highly qualified and dedicated Christian educators who are committed to VCS's written philosophy, mission, vision, and core values. They engage in ongoing professional development that promotes sustained growth for themselves, their students, and for VCS's academic programs as a whole.

SPIRITUAL EMPHASIS

We integrate biblical truths into every subject area. Daily, our students are taught a biblical world-view with the Bible being the authority on morality. All students have daily Bible classes, weekly chapels, weekly small-group discussions led by teachers, and clubs with biblical themes supplement the Christian growth experience. Our Elementary Worship Team leads us in worship during chapel, and pastors bring messages that emphasize our yearly chapel theme.

ACADEMIC EXCELLENCE

VCES offers a complete and excellent range of academics designed to prepare students to excel in Middle and High School. All teachers offer tutoring times during the week to assist students or to answer questions. And we use PowerSchool, an online program that helps parents monitor their student's course work, grades, and attendance. Pull-out classes include Library, PE, Art, Vocal Music, Band, and Computers, and resource classes are available through an on-site independent contractor for students needing extra help in reading. GATE classes, are available for eligible students as an after school program, in 3rd -5th grades.

TECHNOLOGY

Technology is strongly emphasized at VCES. Each classroom is equipped with a SMART Board. Elementary Computer Lab is used weekly, tablets for each student in all 1st - 3rd grade classrooms, and a mobile iPad cart that all 4th and 5th grade classes use. Classrooms feature computers for AR testing and the Elementary library is equipped with computers as well.

EXTENDED CARE/ENRICHMENT CLASSES

Extended Care is available before and after school, with the option to enroll in our Enrichment classes. Enrichment courses offered are classes such as Homework/Tutoring, Robotics, Culinary Arts, Mini Musicals, Pottery, Guitar, Science Lab, Painting, Drawing, and Gardening.

EXTRA CURRICULAR

We are proud to offer clubs, sports, and events that further develop our students leadership skills, sportsmanship, athleticism, and character. These extra curricular activities include Sports, Worship Team, Prayer Team, Student Council, Post Office, Newspaper, Choir, Speech Meet, and Spelling Bee.
