

VCS Safety Town Hall: 28 July 2022

This is an anonymous survey. Your email and identity will not be recorded.

OPTIONAL: Please identify which school your child(ren) attend (EE,EL,MS,HS)

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

The back gate by the kindergarten playground stay locked and monitored. People came in and out of that gate all year last year without anyone noticing

I knew of parents who went on field trips last year who were not background checked.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

(EL & MS students) - Allow our MS and HS students to carry phones in their backpacks. You can prohibit the use of Apple watches or phones while in class, but it's a safety issue to have no way to call for help while in or outside of a classroom. Notify parents using mass text or automated call system of any threats before or as soon as you are aware, not after. We should be allowed to make the decision whether or not to send our children to school if there is a threat of violence. Continue to have security monitoring the campus during school hours.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

I think the inner safety is as important as the safety outside of the gates. I believe insuring there is no bullying and places children can go when they feel threatened is important.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Guards need to be armed, the gate/wall by middle school and high school need to be patrolled or less access for potential threats. We need to keep our children's minds safe by not bringing in any woke narrative. Parents need to be in the loop about threats to our school and not told about it after the fact all while we noticed that parents on the board and in higher positions just happened to keep their children home from school that next day and then told parents about the threat after the fact. Vcs needs to be more transparent with the issues in school, I feel like vcs has been ignoring and sweeping issues under the rug. Specifically bullying, other students trying to access vcs to harm a vcs student.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Real time communication when violent incidents in the US occur that may affect our children a mental over safety. Public schools have emails and texts sent within an our acknowledging the incident and concern. Don't just ignore that something awful and major happened in the community.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

I'd like to know any three door if unlocked when I bring my 3yro & 5yro to drop them in the mounns verses having to knock. Anyone can walk in, but when I bong to pick them up, the door of locked. Yes, they open it, but there's no peep hole so they have to open the door to peek their head out to see if it's the parent. Anyone can pull the door open if it's not. I'm just thinking safety first for our babies & the staff.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

The security guard not patrolling, speeding from EE to MS area, parents going onto campus near Gym without signing in or suppose to be there during the middle of the day, and their should be a guard ALL day in the shack stopping cars prior to going back towards MS in the middle of the day. The campus is NOT as secure as you think. I can get on multiple ways without being stopped, which I've done multiple times.

MS parents should NOT be picking up kids in the front parking lot. They have caused car accidents and kids walking right though EL without being stopped. They go out the back gate near the staff lounge. No one stops them. Who's to say an EL student won't walk out the gate as well? How long would it take to notice a kid completely missing?

Speeding is a HUGE issue!

Everyone cutting one another off in the EL pickup/drop off area is unsafe as well. Parents need to be told they are not to cut one another off and be patient. I personally was almost hit multiple times a week during drop off. It wasn't as much as an issue prior years but last year was a MESS. Oh, also parents walking kinder kids into school from the drop off. That's not a parking area! Or finishing homework in the front of the line. They need to be told to Go park in a proper spot.

The playground between EL and Padan has had issues as well. Padan kids were cussing out our EL students. That's absolutely not acceptable. We should have a barrier or something between the two campuses Vs a fence to allow them to cuss our kids out. We pay good money to avoid the public school riff raft that they allow.

The doors to classrooms being left unlocked. 5th grade is NOT in a gated area and the doors were unlocked. Same with other grades. There is no one or gates stopping people from driving onto campus and getting to the 4/5th grade area.

There are parents who work for the FBI and Homeland security who find security on campus a JOKE.

There has been way to many issues with students actions in MS without action being taking care of. I would love to see the rules actually being enforced in MS consistently. Lots of newer students have shifted the Christian environment VCS use to have. It needs to be addressed.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Access restrictions past the guard shack on the elementary campus after the school day starts. The 4th/5th grade rooms are exposed as well as the MP room. Vehicles/Pedestrians should not be allowed to enter past the guard shack after the first bell rings.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

The email that was sent out before school ended said there was only 1 entrance to the Elementary school and that it was monitored. That is actually incorrect because people can come on campus at any time by driving through to the back past the MP. The middle school and 4th/5th grade classrooms are completely exposed. Anyone could drive up and then walk up to any of those classrooms. They could also simply walk through the chain link fence near the gym and have access to the playground and other classrooms.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Starting middle school (and high school) later in the day (would align with new CA state law) and likely improve school performance as it would better match the circadian rhythms of older children and lead to improved sleep.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Access to campus (ie., windows, doors); safety monitors (all staff); ways to respond to trouble. (e.g., securing the doors as a safety drill similar to fire drills. Safety audits scenarios to test the response of the school community to potential threats or suspicious activity or persons, including students. Safe space to report potential bullying and the mindset of the kids being bullied (i.e., how to teach kids to recognize potential behavior concerns with their fellow students such as mood swings, altered language, and other indicators of potential problems that may arise).

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

Lock all public access points to the areas where children are. For example, the gates to the EE playgrounds are always unlocked and someone from the public can walk in anytime- the fear is this happening at recess since I know classroom doors are locked.

What are some important things for us to consider as we work to ensure our schools are safe places for all students to learn?

We have driven and walked around on campus many times during school hours to check out the safety and surroundings and have never once been stopped by the person at the guard shack or any adult on campus to ask us who we are or if we need anything. We thought the guard shack person was supposed to be stopping cars who pull into the school
