

OUR MISSION

Vacaville Christian Schools exist to provide, in partnership with home and church, a distinctive, Christ-centered education in a nurturing environment that equips young people to excel in life and in service to Jesus Christ.

ACCREDITATION

Dual accreditation through Association of Christian Schools International & Western Association of Schools and Colleges.

OUR CAMPUS

We enjoy a beautiful, 26-acre campus in Vacaville, CA. Our facilities include a well-equipped library, a band rehearsal room with three practice studios, art room, vocal music room, computer lab, and a fully staffed kitchen for our lunch program. We have two well-maintained playgrounds and Extended Care garden area.

OUR FACULTY

Our faculty is comprised of highly qualified and dedicated Christian educators who are committed to VCS's written philosophy, mission, vision, and core values. They engage in ongoing professional development that promotes sustained growth for themselves, their students, and for VCS's academic programs as a whole.

SPIRITUAL EMPHASIS

We integrate biblical truths into every subject area. Daily, our students are taught a biblical world-view with the Bible being the authority on morality. All students have daily Bible classes, weekly chapels, weekly small-group discussions led by teachers, and clubs with biblical themes which supplement the Christian growth experience. Our team leads us in worship during chapel, while special speakers, teachers and pastors bring messages that emphasize our yearly chapel theme.

ACADEMIC EXCELLENCE

VCES offers a complete and excellent range of academics designed to prepare students to excel in Middle and High School. All teachers offer tutoring during the week to assist students or to answer questions. And we use PowerSchool, an online program that helps parents monitor their student's course work, grades, and attendance. Pull-out classes include Library, PE, Art, Vocal Music, Band, and Computers. Resource classes are available through an on-site independent contractor for students needing extra help in reading. GATE classes, are available for eligible students as an after school program, in 3rd -5th grades.

TECHNOLOGY

Technology is strongly emphasized at VCES. Each classroom is equipped with a SMART Board. Students in K-3rd grade attend computer class weekly, for one semester. Students in 4th & 5th grades attend computer class for the full year. The Elementary library is equipped with computers for AR testing.

EXTENDED CARE

Extended Care is available both before and after school. To register for Extended Care, sign up through Admissions or complete a File Maintenance form in the elementary office.

ENRICHMENT CLASSES

VCS Elementary students can participate in a variety of Enrichment classes, including Chess, Culinary Arts, Spanish, Lego/Robotics, Painting, Drawing, and Gardening. Offerings will vary by session, and details are available in the Elementary office, and Newsletter.

EXTRA CURRICULAR

We are proud to offer clubs, sports, and events that further develop our students leadership skills, sportsmanship, athleticism, and character. These include our I Am Third Student Leadership Group, Prayer Team, local Spelling Bee, and grade leveled sports: soccer, T-ball, Running Club, Basketball, and Volleyball.
